1. [redacted] Delivered to Senator Symington, at his home, a breakdown of the military strength of the North Vietnamese and Vietcong. This was done in response to a request from the Senator through the Committee staff and cleared by the staff with Senator Stennis. I asked the Senator if he wanted me to wait while he digested the material. He thanked us very much and said it was not necessary and that he would take care of the matter himself.

3. [redacted] Senator James O. Eastland asked to see me regarding a discrepancy in dates with respect to a Moscow radio broadcast to North America commenting on the "Lincoln Project." We had provided the Internal Security Subcommittee with the text of a broadcast on 13 February 1956. Eastland had correspondence referring to a broadcast of 12 February 1957. He queried me regarding the discrepancy in the dates. After checking with FBIS, I informed Eastland that there was no Moscow broadcast at this approximate date in 1957 and, therefore, I could only conclude that his correspondent had made an error in the date. Senator Eastland agreed with this and thanked us for our assistance.
